SUMMARY

Computer Science Engineer graduated from SDM Institute of Technology with a strong foundation in software development and full-stack web application development. Passionate about leveraging technology to solve real-world problems and building impactful, user-focused applications.

EDUCATION

SDM Institute of Technology, Ujire, Dakshina Kannada Dec 2022 – May 2026
Bachelor of Engineering (UG/BE) | CGPA: 8.61

Karnataka Public School, Bidkalkatte, Kundapura Sep 2021 – Apr 2022
12TH/PUC | Percentage: 92.8%

Morarji Desai English Medium Residential School, Koteshwara Jun 2019 – Jul 2020
10TH | Percentage: 90.4%

SKILLS

- **Languages:** JavaScript, Java, C programming
- **Web Development:** HTML, CSS, React.js, Node.js, Express.js
- **Databases:** MongoDB, SQL
- **Tools/Others:** Firebase, Redux Toolkit, Tailwind CSS, Python (ML), Postman

EXPERIENCE

Freelance Full Stack Developer Project: E-commerce Application

- Developed a full-stack e-commerce application with a responsive admin panel for product and order management
- Built the frontend using **React Native** with **Tailwind CSS** for a responsive and user-friendly UI
- Implemented state management using **Redux Toolkit**
- Designed backend APIs using **Node.js** and **Express.js**
- Managed database operations using **MongoDB**
- Integrated **Cloudinary** for image upload and storage
- Ensured smooth user experience with optimized performance and clean UI

Tech Stack: React Native, Tailwind CSS, Redux Toolkit, Node.js, Express.js, MongoDB, Cloudinary

MERN Stack Intern Genesis Training and Consulting Services Pvt. Ltd.

- **Duration:** 15 Weeks
- Completed a 15-week internship focused on full-stack web development using the MERN stack
- Developed and worked on web applications using **MongoDB**, **Express.js**, **React.js**, and **Node.js**
- Built RESTful APIs and integrated them with frontend applications
- Gained hands-on experience in database design and backend development
- Collaborated on projects and improved debugging and problem-solving skills

PROJECTS

Climate Resilient Agriculture Using Machine Learning Aug 2025 – Nov 2025

[GitHub](#) | [Live Demo](#)

- Developed a smart farming platform using machine learning and weather analytics to assist farmers in decision-making.
- Implemented disease prediction models, crop recommendations, and climate risk analyzers.
- Built using MERN stack and Tailwind CSS to promote sustainable agriculture practices.

Tech Stack: MERN Stack, Redux Toolkit, Firebase, Python ML, Render

Smart Healthcare Assistance Platform

Dec 2025 – Dec 2025

[GitHub](#) | [Live Demo](#)

- Developed a full-stack healthcare platform featuring automated location fetching for nearby hospital and Medicals suggestions.
- Having disease management, Indian diet planning, doctor consultation, and medicine/disease vault features.
- Integrated Google Maps for navigation and a system to contact verified doctors.
- Built a secure admin panel for managing doctor profiles, user data, and a disease information database.

Tech Stack: MERN Stack, Redux Toolkit, Firebase, OpenStreetMap API, Vercel, Render

Local Service Booking Platform

Feb 2026 – May 2026

[GitHub](#) | [Live Demo](#)

- Developed a full-stack local service booking platform with separate user, service provider, and admin panels.
- Implemented service booking, scheduling, provider approval, worker assignment, booking status tracking, and review management features.
- Enabled service providers to manage services, accept or reject bookings with reasons, and update service progress in real time.
- Built a secure admin dashboard to monitor users, providers, services, reviews, and manage role-based access control.

Tech Stack: MERN Stack, Redux Toolkit, Tailwind CSS, Vercel, Brevo, OpenAPI

CERTIFICATIONS

- **Database and SQL** – Coursera (May 2024 – Jun 2024)
- **Full-stack development using React.js** – SDMIT Ujire (Oct 2024)
- **Soft Skills** – NPTEL (Aug 2025 – Oct 2025)
- **Web Design Courses** – Infosys Springboard (Nov 2024 – Dec 2024)

HOBBIES

- Building web applications and exploring new technologies
- Drawing and creative sketching
- Listening to music
